OBJECTIVE

Motivated MCA graduate (2026, JNTUK) with a strong academic foundation in Computer Applications, Programming, and Data Structures, combined with practical experience in Python, Java, Machine Learning, and Web Development. Published AI researcher with hands-on project and internship experience building end-to-end software solutions. Seeking to leverage strong analytical thinking and technical versatility in an entry-level IT role spanning software development, data science, or web technologies.

TECHNICAL SKILLS

Programming Languages: Core Java, Python, C, OOP, Data Structures & Algorithms

Web Technologies: HTML, CSS, Bootstrap, JavaScript

Data Science / ML: scikit-learn, pandas, NumPy, Matplotlib, Seaborn, Streamlit

Databases: SQL, SQLite

Tools & Platforms: VS Code, Git & GitHub, MS Office

EDUCATION

Master of Computer Applications (MCA) — Potti Sri Ramulu College, JNTUK

2024 – 2026

CGPA: 8.14

Bachelor of Science (MPC) — Acharya Nagarjuna University

2020 – 2023

First Class — 69.62%

PROJECTS

AI-Based Women Health Risk Prediction & Secure Medical Record System

Python, Streamlit, scikit-learn, SQLite

- Built a PCOS risk screening web application using a Random Forest Classifier trained on 541 patient records across 8 clinical features.
- Implemented secure authentication (PBKDF2-SHA256), role-based access control (Patient/Admin), and encrypted health record storage in SQLite.
- Research findings published in IJVRA (ISSN: 2984-8903), Vol. 4, Issue 6, June 2026, Impact Factor 9.12.

Wine Quality Prediction using Machine Learning

Python, scikit-learn, pandas, Seaborn

- Developed and compared classification models (Logistic Regression, SVM, KNN, Naive Bayes, Random Forest) on the UCI Wine Quality dataset (1,600+ samples).
- Achieved highest accuracy with Random Forest; evaluated performance using confusion matrix, classification report, and Seaborn heatmaps.

INTERNSHIP EXPERIENCE

Data Science Intern — SkillDzire (AICTE Approved)

May 2025 – Jun 2025

- Gained hands-on experience in data analysis, data preprocessing, and building machine learning classification models.

Web Development / JavaScript Intern — ExcelR EdTech (APSCHE & AICTE)

May 2025 – Jul 2025

- Built responsive, cross-browser web pages using HTML, CSS, Bootstrap, and JavaScript under a state-recognized internship program.

RESEARCH PUBLICATION

"AI-Based Women Health Risk Prediction and Secure Medical Record System Using Random Forest Classifier"

IJVRA (ISSN: 2984-8903), Vol. 4, Issue 6, June 2026, Impact Factor: 9.12 — Co-authored with Dr. S. Saravana Kumar and VSRK Prasad G.

CERTIFICATIONS & ACHIEVEMENTS

- Digital Marketing — Infosys Springboard, Infosys Limited (December 2024)
- Build Your Own Static Website (HTML, CSS, Bootstrap) — NxtWave Intensive, in association with NASSCOM (September 2024)
- Diploma in Software Management — MICE, Mangalagiri, Grade A+ (May 2023 – October 2023)
- Diploma in Computer Applications — MICE, Mangalagiri, Grade A+ (January 2023 – June 2023)
- National Seminar Participant, "Basic Research and Analysis in Nanoscience" — Dept. of Nanotechnology, Acharya Nagarjuna University (March 2021)
